Dear Frank & Hadie,

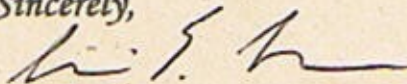

After a long stressful day, driving home to our new HomeLink home is always a pleasure. The weekends are filled with finding art, accessories, and furniture for our new home. Entertaining is exciting and always eventful in our beautiful home.

Before all of this warm homecoming we had to go through the actual building phase. You always hear about the nightmares of building, but from the time of planning, Frank and Hadie had the expertise on knowing what our needs were in building our dream home. Every detail was thoroughly thought out. We were amazed at the extra advantages Homelink had over the other builders in our area.

Homelink had the precise detail of craftsmanship and the expertise of all the professional sub contractors, the open communication with Frank and his superintendent filling our demanding wishes, and the tasteful ideas in home decorating by Hadie has made our home complete.

Living in our Homelink home for several months has been a dream come true. Mari and I would highly recommend Homelink for anyone wishing to build their dream home.

Sincerely,

Mr. & Mrs. Emilio Escobar
